ProX XS-WM2U2DR 2U Rack Case with 2U Rack Drawer 12" Deep

Description

The **ProX WM2U2DR** 2 Space 2U vertical plus a 2U Drawer 10" deep, rack case is the perfect storage solution for convenient security for a wide variety of wireless microphones as well as amplifiers, mixers, effects, and any other standard 19" width rack-mountable professional audio/DJ/Network gear. The 2U drawer provides extra storage for cables and more.

Built with a heavy-duty construction design and dual mounting rails your equipment won't dislodge or slip, and strain on the rack ears will be minimized. These professional-grade products also include external spring-loaded handles and butterfly twist latches with included padlocks for added security. The hard rubber feet and walls will ensure maximum stability when on tour and stacking multiple units. As part of the ProX Cases Signature Series line of products, the ProX WM2U2DR case is assembled with 3/8" plywood for premium protection. In addition to the heavy-duty design and convenient features of the **ProX WM2U2DR**, this case is coated with a beautiful black finish giving you a stylish, durable, and dependable product that will last a lifetime.

This ProX **ATA 300 Case** is manufactured with the **Honeycomb Digital™** Protective Finish on Laminated 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, sets ProX apart from other manufacturers. The Honeycomb Digital™ design helps prevent minor to mild scratches. This unique design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
