### ProX XT-STAR1082 10.82FT (3.30M) Diameter Square Truss Star Segment (10 sections)

#### Description

XT-STAR1082 Square Framed STAR Truss (10 Segments) F34

The exclusive XT-STAR1082 is one of the most unique trussing elements you will find. Incorporate this into your truss designs and you will stand out from the competition.

ProX Truss has the most trusted staging support systems in the industry and is built to the highest standards of safety and performance. It's a rugged yet lightweight trussing solution perfect for mobile DJs, bands, outdoor performances, nightclubs, live mobile productions, or permanent installations.

At the heart of the system is square truss that utilize a standard conical connector system, which easily mates with other brands of truss of the same size and connector style, and is available in a variety of lengths to suit your designs. It also works with different types of corners, base plates, connectors and accessories that add stability while expanding on limitless configurations.

Always know your load weight for your equipment: [VERY IMPORTANT - CLICK HERE for Truss Loading Chart](#).

- **Tolerance Free Standard Conical connector**
- **Main tube wall thickness of .08in**
- **Includes connecting hardware set.**
