- (2) ProX **XT-F32-656** F34 Conical Segments
- (2) Fantek **XT-F32TMB** Adjustable Truss Bracket T-Adapters

About Fantek Top Loading Towers

The Fantek® T101 model telescopic lifting tower is a tower designed to lift loads vertically while allowing easy transport in a minimum space. It is composed of three extensible steel profiles elevated by a high-resistance steel cable guided by grooved pulleys with SELOIL bronze bearings. Fixing of the tower section at the working height with an automatic steel safety pin. Legs with non-slip rubber pads. The entire system is operated by a manually operated winch. Fantek ATC-MOB Universal truss support for all models of top-loading towers. Allows truss to be anchored to the tower.
