### ProX T-18RSS24WDST 18U Space Amp Rack Mount ATA Flight Case 24 Inch Depth W/Casters

#### Description

The **ProX T-18RSS24WDST** 18 Space vertical amplifier rack case is the perfect storage solution for convenient security for a wide variety of amplifiers, pro DJ mixers, effects and any other standard 19" rack-mountable pro audio/DJ/Network gear, and with an extra deep 24" Rail-to-Rail depth. Built with a heavy-duty construction design and dual mounting rails your equipment won't dislodge or slip, and strain on the rack ears will be minimized.

These professional-grade products also include external spring-loaded handles and butterfly twist latches and padlock ready for added security. The **T-18RSS24WDST** case is assembled with thicker 3/8" plywood for premium protection. In addition to the heavy-duty design and convenient features of the T-18RSS24, this case is a stylish, durable, and dependable product that will last a lifetime.

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

*All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.*

***Note: Any pictured device is shown for reference only and not included!***
