ProX XT-BP2430W 24 x 30 in. Module Base Plate with Locking Casters for ProX XT-GRU Rapid Grid Modular System | Black Finish

Description

ProX XT-BP2430W 24 x 30 in. **Module Base Plate with Locking Casters** for ProX XT-GRU Rapid Grid Modular System rolling base is constructed from 10mm AWT6 6061 Aluminum Plate with handle cutouts and multiple drilled stud mounting holes for versatility. The base plate is mounted on four 3" locking casters. The base plate casters allow for easy moving of GRU or truss configurations from the truck to venue to stage with minimal effort and protection for your lighting devices. The baseplate is designed to work with the XT-GRU3024 grid units but can also be configured to work with F34 trussing products as well.

The XT-GRU3024 Rapid Grid™ Modular System allows endless configurations for single fixtures, double hanging, or ladders of multiple fixtures, which can also be expanded to create a wall of hanging positions. Each U module has two safety point attachments, one on each side for use with multiple styles of fixtures. The **ProX GRU Rapid Grid™ System** has been designed for quick deployment and takedown in any environment. The lightweight yet strong aluminum construction is additionally reinforced to provide added stability and safety.

TUV is a 3rd Party Certification Body and a Nationally Recognized Testing Laboratory (NRTL). TUV provides inspections, testing, certification & training, with the ultimate objectives of reliability, safety & high quality.
