### ProX XT-BPC328 MK2 3.28 Ft. - 1 Meter Circle Truss Wheel - Round Base or Top Mount

#### Description

The **ProX XT-BPC328 MK2** 3.28ft Circle Truss is excellent for a variety of lighting and accessory needs of a mobile DJ, stage set, sound arrangements and more! This second-generation circle component is based on the design of our XT-F32JBOX Junction as a center section. The circle component can be used as a base or truss topper. Create unique lighting designs by mounting this circle on the top of a truss segment or totem and hanging lights or other gear in a 360-degree dispersion. This, used as a base, makes a great bottom for truss totems!

- **Tolerance Free Standard Conical connector**
- **Main tube wall thickness of .08in**
