ProX T-4RSP14 4U Vertical Shockproof Effects Rack 14" Depth Rail to Rail with Handles

Description

The ProX **T-4RSP14 4-space vertical with 14" Depth Shockproof amplifier rack case** is the perfect storage solution for convenient security for a wide variety of amplifiers, pro DJ mixers, effects and any other standard 19" width rack-mountable pro audio/DJ/Network gear. Built with heavy-duty construction design and dual mounting rails your equipment won't dislodge or slip, and strain on the rack ears will be minimized. These professional-grade products also include two external spring-loaded handles and padlock ready butterfly twist latches for added security.

The hard rubber feet and walls will ensure maximum stability when on tour and stacking multiple units. As part of the ProX Cases Signature Series line of products, the T-4RSP14 case is assembled with thicker 3/8" plywood for premium protection. In addition to the heavy-duty design and convenient features.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.
