ProX XT-JB6W-4W-BLK 6 Way F34 Corner Block W/16 4 Way Half-Conical Couplers Black Powder Coated | 3mm Wall

Description

The **ProX XT-JB6W-4W-BLK 6 Way Square Truss Junction Box | 3mm Wall** is a universal connecting point for F34 trusses, and it's equipped with connecting hardware for use with ProX XT F34 square truss components. It features 2" outer diameter tubing and 3/4" diagonal bracing. It has XT Series 3mm thick tube walls, this truss junction block is strong and can be used for many applications. It is built to the highest standards of safety and performance. Finished in Powder Coated Black

16 Half Conical couplers included, additional conical couplers can be added for more utility ([Sold Separately XT-CA-103](#))

Powder coating provides a stronger finish that is more resistant to damage than paint! Using a black powder coat truss is an effective way to add character to your truss designs. Powder-coated black aluminum ProX truss products provide an extra element that will help to personalize your truss display. Powder-coated finishes provide durability that reduces the risk of scratches, chipping, abrasions, corrosion, fading, and other wear issues.

ProX Goes Green - Unlike many liquid paints, powder coatings offer a smaller carbon footprint which reduces the adverse effects on the environment. Powder coatings contain no solvents and release little or no amount of Volatile Organic Compounds (VOC) into the atmosphere!

Always know your load weight for your equipment: [VERY IMPORTANT - CLICK HERE for Truss Loading Chart.](#)
