ProX XS-7DTW (7) Utility Drawer ATA Flight Style Case with Fold out Left Right Side Mounting Removable Table and 4 inch Casters

Description

ProX **XS-7DTW** (7) Utility Drawer ATA Flight Style Case **with Fold Out Left Right Side Mounting Removable Table** and 4 inch Casters. The XS-7DTW Workstation Case is constructed with our Signature Series Plywood, durable handles and pulls, and reinforced steel ball corners for years of on-the-road use. The Workstation boasts a black honeycomb laminated finish with a sharp, modern look that fits right in with a variety of environments.

Includes: 3x2U, 3x3U, and 1x6U Rack Drawers

This case features seven easy-to-open drawers and a side work table (case lid) to keep your gear organized and easily accessible for your professional events. The table, which serves as the cover, will connect to the left side of the drawer unit.

You have three different sizes of drawers to store a variety of sound reinforcement gear, ranging from cables and connectors to delicate electronics like wireless microphones. The heavy-duty drawers feature ball-bearing slides for long life in various workload situations. The workstation case lid detaches and **becomes a 21.5" x 38" side work table**, providing ample space for event preparation or repair.

The XS-7DTW workstation case is easily transported with the included four professional-grade casters for easy loading in and out at your events. The case also has recessed fold-out handles on the sides, ensuring comfortable lifting for two people.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface design. It showcases the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, giving the cases an almost alien appearance. Unlike regular laminated plywood cases from other manufacturers, our signature series **Honeycomb Digital™** design helps prevent minor to mild scratches and withstands rough and tough everyday use.

All ProX cases use CNC technology during the manufacturing process to ensure consistent construction according to strict specifications and tolerances. These high-quality standards have been synonymous with ProX cases since 1984.

* ProX Goes Green: The durable hard rubber foams used in our cases contain 85% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from recycled post-industrial material. At ProX we strive to make the world a better place!
