### ProX XS-PRIME4 WRB ATA Flight Case For Denon PRIME 4 DJ Controller with 1U Rack Space and Wheels - Red Black

#### Description

The **ProX XS-PRIME4 WRB** provides ultimate security for your Denon Prime4 Standalone DJ system. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The **XS-PRIME4 WRB** case is constructed with a rugged and durable signature 3/8" Series Plywood, reinforced steel ball corners, as well as ProX branded recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, and a 1U Rack Space underneath the unit (1U Rail Hardware Included), as well as a removable front panel. The front removable panel allows for easy access to the 1U rack space, front controls, and headphone/mic jacks.

This ProX Digital Media case is manufactured with the Honeycomb laminated surface Design in **Red with Black** trim. Made with the super-sleek look of Honeycomb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

***Note: Any pictured device is shown for reference only and not included!***
