ProX XS-MIC20S ATA Flight Case for (20) Wireless Wired Microphones with Additional Storage

Description

ProX XS-MIC20S ATA Flight Case for (20) Wireless Wired Microphones, Fits Most Standard Mics up to 11" Depth with Additional Storage. Introducing the ProX XS-MIC20S Heavy-Duty Flight Case, the ultimate solution for safeguarding your valuable microphones while ensuring their seamless transport. This rugged case has been meticulously designed to house and secure up to 20 microphones with unparalleled precision. Each microphone is cradled in a high-density foam interior, specially crafted to provide a snug fit that minimizes movement during transit. Whether you're a seasoned audio professional or a mobile enthusiast, this case offers the perfect blend of protection and convenience.

Crafted with the discerning audio professional in mind, the ProX XS-MIC20S exemplifies durability and ease of use. Sturdy handles provide a comfortable grip for effortless maneuverability, ensuring that you can confidently carry your microphones to any location. Built to withstand the rigors of the road, this case boasts powerful steel ball corners that reinforce its structural integrity and butterfly latches that securely seal the case, offering peace of mind in the face of unexpected bumps and vibrations.

Invest in the ProX XS-MIC20S Heavy-Duty Flight Case, and you'll never have to compromise on the safety and convenience of your microphone collection again. With its robust construction and thoughtfully engineered interior, this case delivers the protection your microphones deserve and the mobility you demand, making it an indispensable asset for any audio professional on the go. Travel with confidence and style, knowing your microphones are safe and sound in the ProX XS-MIC20S.

* ProX Goes Green: The durable hard rubber foams used in our cases contain 70% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from the recycled post-industrial material. At ProX we strive to make the world a better place!

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

For the safety of your equipment, do not attempt to transport with any gear not properly loaded into the case.
