#### Description

ProX **XS-LDMAUI44X2W** ATA Flight Case for **2x LD System Maui 44G2** Compact Arrays Fits Two Speakers and Subwoofers. XS-LDMAUI44X2W is designed specifically to store and protect up to 2x LD System Maui 44G2 Column Line Array / Subwoofer speakers. **Stores up to two subwoofer units plus two arrays inside the case.** This professional speaker case employs a 3/8" Honeycomb laminated plywood that has a hard shell with internal impact-resistant padding to provide the best protection for your investment. No matter where you take your speakers, you can have peace of mind, nothing will get damaged during transit or in storage.

This case rests on four ProX high-quality 4" casters designed for easy traveling, it also comes equipped with caster dishes on top to facilitate stacking with other flight cases. XS-LDMAUI44X2W is the perfect case for AV production companies, touring bands, entertainment groups, mobile DJs, or anyone who owns 2x LD System Maui 44G2 speakers. Protect your investment with ProX Cases.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

\* ProX Goes Green: The durable hard rubber foams used in our cases contain 70% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from recycled post-industrial material. At ProX we strive to make the world a better place!
