ProX XS-DDJ1000WBL ATA Flight Case for Pioneer DDJ-1000 FLX6 SX3 DJ Controller with 1U Rack Space and Wheels - Black

Description

The **ProX XS-DDJ1000WBL** Digital DJ Controller case is designed for the DDJ-1000 / SRT, DDJ-SX3, and DDJ-FLX-6. It's made with the highest quality material and workmanship and has a 1U Rack Space underneath the unit (1U Rail Hardware Included). If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The XS-DDJ1000WBL fitted for PIONEER DDJ-1000 is constructed with our rugged signature 3/8" Gig-Ready Series Plywood with honeycomb style, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel for you to access front input jacks easily. The front removable panel allows for easy access to the front controls and headphone/mic jacks. There is also a 1U space under the controller for wireless microphones or other 1U equipment.

It's all about the options. This item is part of our **Black On Black** series, which features an all-black exterior for a sleek, professional look. There's no going back. Black is always in style, and an all-black road case for your professional gear will always make a statement.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
