ProX X-EV-ELX118P ATA style flight case fits EV ELX118P Dual speakers

Description

The X-EV-ELX118P is a professional speaker case that houses 2x EV ELX118P powered Speakers and employs a laminated plywood that has a hard shell with internal padding to provide the best customized protection for your investment. The case rests on 4 casters designed for easy traveling it also has dishes on top to facilitate stacking with other flight cases.

This ProX case is manufactured with the Honey Comb laminated surface Design. Made with the super-sleek look of Honey Comb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honey Comb design helps prevent minor to mild scratches. The Honey Comb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

* ProX Goes Green: The durable hard rubber foams used in our cases contain 70% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from recycled post-industrial material. At ProX we strive to make the world a better place!
