XT-BT12PVT Center Pivot Hinge Bolted Truss variable corner Articulating Block

Description

The ProX **XT-BT12PVT Center Pivot Hinge** horizontal variable corner Articulating Block from the most trusted staging support systems in the industry and is built to the highest standards of safety and performance. It's a rugged yet lightweight trussing solution perfect for mobile DJs, bands, outdoor performances, nightclubs, live mobile productions, or permanent installations.

It adjusts from **0° to 180°** and fits ProX 12" **BoltX™** Bolted Truss Segments. Manufactured from high-grade and lightweight aluminum which is easy for transportation and setup! This product can provide a universal solution for truss angles. There is a built-in adjustable arm to lock the desired angle between sections of the truss for unique builds. The superior construction quality of ProX trussing products guarantees many years of trouble-free use.

*ProX Truss products utilize industry-standard dimensions to be compatible to connect to/with many other manufacturers trussing.
