ProX XS-LCD5565WX2 DUAL 55"- 65" Flat Panel Monitor Universal LCD LED TV ATA Flight Case W/4X4" Casters

Description

The **ProX XS-LCD5565WX2** is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches.

This ProX case is manufactured with our exclusive Honeycomb laminated surface Design. Made with the super-sleek look of Honeycomb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also, as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb design helps prevent minor to mild scratches. The Honeycomb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

What size does it fit exactly?

This case supports multiple sized TV's from **55" Models** 48"W x 28"H to **65" Models** 58"W x 33.5"H.

This Universal adjustable case has an adjustable side wall to accommodate TWO screens from 55" up to 65" in size. Locking caster wheels help to secure stability while loading and unloading electronics. Additional EVA foam padding helps secure TVs in place while protecting the device from bumps and scratches. Handles are retractable for effortless LCD caddy maneuvering.

If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

Note: All cases from ProX are designed to protect your equipment from damage from normal use and handling.
