ProX X-DJ202LTBL Digital Controller Flight Case W/Laptop Shelf For Roland DJ-202 Black Black

Description

The **X-DJ202LTBL Flight Case** designed by ProX Cases fits Roland DJ-202 controller, part of our "Black on Black Series" and is made with the highest quality material and workmanship to give you the ultimate security for your Roland DJ-202. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The X-DJ202LTBL with sliding laptop shelf is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel for you to access front input jacks easily. The front removable panel allows for easy access to the front controls and headphone/mic jacks.

This ProX Digital Media controller case is manufactured with the Honeycomb laminated surface Design. Made with the super-sleek look of Honeycomb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb design helps prevent minor to mild scratches. The Honeycomb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases during the manufacturing process use CNC technology to assure all cases are consistently built with strict specifications that are required for the high-quality standards that ProX cases is known for since 1984.

For the safety of your equipment, do not attempt to transport with any gear stored on the sliding shelf and be aware that the shelf can be removed when slid out to its furthest point.

* ProX Goes Green: The durable hard rubber foams used in our cases contain 70% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from the recycled post-industrial material. At ProX we strive to make the world a better place!
