ProX X-EZTILT EZ-Tilt™ Rolling Stand for Medium to Large Format Audio-Lighting Mixer Desks

Description

The **ProX X-EZTILT** is a stand for professional sound and lighting consoles in road cases. It is a heavy-duty stand designed to transfer mixing consoles from vertical case position to the horizontal working position, quickly, safely and easily. This stand is designed to prevent the user from the heavy lifting of the case and console and provide a super-strong stand to support your console safely.

This ProX EZ-Tilt™ stand has a proprietary hinge design, utilizing a self-lubricating internal roller system, making it easy to open and fold easily and smoothly. It also has a wide expanding hinge system so it can hold mixers of a larger size. The 30" height of the ProX X-EZTILT stand makes for comfortable working height.

These practical tilting stands are fully foldable, lightweight and include two 3" non-marring wheels for easy movement to the working location. Once you've used a **ProX X-EZTILT** you will never go back to deadlifting consoles!

Features

- **Black Powder Coated high-grade steel for ultimate strength**
- **3" Non-Marring wheels**
- **30" high from floor**
- **Load Rated to 650 lbs. maximum load**
- **From front to the back of the stand is 36"**
