ProX XS-MIXTRACKLTBL Fits Numark Mixtrack Digital Controller Flight Case w Laptop Shelf BLACK ON BLACK

Description

The XS-MIXTRACKLTBL is designed to protect and secure the Numark Mixtrack & Mixtrack Pro Controllers. With its premium design and heavy duty construction, you will have no worries that your DJ controller is unsafe no matter what conditions you put it through. This ATA-style flight case also includes a smooth and sturdy Sliding laptop shelf for your playing convenience. This case is lined with impact resistant foams. There is also a removable emblem cover on the back of the unit for easy cable set-up.

This ProX Digital Media controller case is manufactured with the Honey Comb laminated surface Design. Made with the super-sleek look of Honey Comb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honey Comb design helps prevent minor to mild scratches. The Honey Comb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.
