ProX XS-CDM1012WBL Flight Case DJ Coffin for 4 Ch Mixer plus 2 CD Players W-Wheels | Black on Black

Description

The **ProX XS-CDM1012WBL** Mixer/CD player case has premium Series laminated plywood construction to protect your investment, and all steel heavy duty ball corners to withstand the rigorous travel that a professional DJ demands. Black on Black construction will turn heads, and keep with the decor of any venue. Adjustable foam inserts for a perfect fit. The ProX XS-CDM1012WBL has it all.

The ProX XS-CDM1012WBL is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, reinforced steel ball corners for protection and easy stacking, and recessed steel padded handles and latches to protect them from damage during transport.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
