### ProX XS-DDJSRLTBL Flight Case For Pioneer DDJ-SR Digital Controller W-Laptop Shelf | Black on Black

#### Description

The **ProX XS-DDJSRLTBL** Flight case is made to fit **Pioneer DDJ-SR Digital DJ Controllers** with the highest quality material and workmanship to give you the ultimate security for your SR controller. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The XS-DDJSRLTBL with **Sliding Laptop Shelf** is constructed with a rugged and durable signature 3/8" Series Plywood, reinforced **steel ball corners**, as well as recessed steel **padded handles and latches**. There is additional space for cables and small accessories in the back and underneath the unit for convenience, and a 1U Rack Space underneath the unit (1U Rail Hardware Included), as well as a removable front panel. The front removable panel allows for easy access to the 1U rack space, front controls, and headphone/mic jacks.

This item is **part of our Black On Black series**, which features an all-black exterior for a sleek, professional look.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

*All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.*

**Note: Any pictured device is shown for reference only and not included!**

For the safety of your equipment, do not attempt to transport with any gear stored on the sliding shelf and be aware that **the shelf can be removed** when slid out to its furthest point.
