ProX XS-DDJSXBL Flight Case For Pioneer DDJ-SX2 DDJ-SX3 DDJ-RX Digital Controller | Black on Black

Description

The **ProX XS-DDJSXBL** Flight case is designed by ProX Cases for the PIONEER DDJ-SX3 DDJ-SX2 or DDJ-RX Digital DJ Controllers and is made with the highest quality material and workmanship to give you the ultimate security for your controller. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The XS-DDJSXBL is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and a 1U Rack Space underneath the unit (1U Rail Hardware Included), as well as a removable front panel for you to access front input jacks easily. The front removable panel allows for easy access to the 1U rack space, front controls, and headphone/mic jacks.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases during the manufacturing process use CNC technology to assure all cases are consistently built with strict specifications that are required for the high-quality standards that ProX cases is known for since 1984.

For your safety and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that sliding shelves can be removed when slid out to its furthest point.

Customer Testimonials

DDJ-SX2 Case works great. Not small enough to hand carry. checked it as baggage, it held up well. I needed to put padding above mixer and behind so it wouldn't move around. Not light but not too heavy to carry with one arm. Looks very professional when set up! I am VERY HAPPY with my purchase.
