ProX XS-DDJSXWLT0B Flight Case for DDJ-SX3/SX2 Digital Controller W-Laptop Shelf & Wheels | LED Kit | Black on Orange

Description

The **ProX XS-DDJSXWLT0B** Black on Orange flight case with sliding laptop shelf and **1U Rackspace** underneath the controller is designed for Pioneer DDJ-SX3 DDJ-SX2 DDJ-RX or Denon MC7000 is made with the highest quality material and workmanship to give you the ultimate security for your controller. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time; in orange and black!

The XS-DDJSXWLT0B case is constructed with our rugged signature 3/8" Gig-Ready Honeycomb Digital Series Plywood with laptop shelf, durable rubber wheels, reinforced steel ball corners. There is additional space for cables and small accessories in the back and underneath the unit for convenience and a removable front panel that allows for easy access to the 1U rack space, front controls, and headphone/mic jacks.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

\$30 Value BONUS: The XS-DDJSXWLT0B comes with one Color Changing LED Tape X-S18RGBKIT. Pimp your flight case with the Revolution Plug'n'Play RGB LED Tape! The X-S18RGBKIT includes a 3-key Controller able to change 20 Colors in 19 Modes. The LED strip tape attaches anywhere you need on the case, including under the laptop shelf to provide overhead lighting on your controller and cable space.

For the safety of your equipment, do not attempt to transport with any gear stored on the sliding shelf and be aware that the shelf can be removed when slid out to its furthest point.

Customer Testimonials

It's great that this case has wheels, makes it WAYYYY easier to carry my SX2. Padding holds the controller securely, it is a good height and made very well. The top shelf stuck for a while and was a bit tough to move back and forth, but some WD-40 solved that in about 5 seconds. Great case for the money.

DDJ-SX2 Case works great. Not small enough to hand carry. checked it as baggage, it held up well. I needed to put padding above mixer and behind so it wouldn't move around. Not light but not too heavy to carry with one arm. Looks very professional when set up! I am VERY HAPPY with my purchase.
