ProX XS-DNMC6000LTBL Flight Case for Denon DNMC6000 - MC6000MK2 Digital Controller W-Laptop Shelf | Black on Black

Description

ProX XS-DNMC6000LT Road Case is designed by ProX Cases for the **Denon MCX8000** and is made with the highest quality material and workmanship to give you the ultimate security for your equipment. If you have a passion for your gear and want to keep it safe at all times, this case will always perform at the highest level.

The XS-DNMC6000LT with removable sliding laptop shelf is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, reinforced steel ball corners for protection and easy stacking, and padded steel handles and latches which are recessed to protect them from damage during transport. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel for you to easily access the front controls and headphone/mic jacks.

It's all about the options! This item is part of our **Black on Black** series, which features a Black Honeycomb Digital™ finish with black hardware for a sleek, professional look. There's no going back. This stunning ProX road case, for your professional gear, will always make a statement.

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

For your safety, and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that the sliding shelf can be removed when slid out to its furthest point.

Features
ProX has been manufacturing road/flight cases since 1984 and are designed to protect your investment!
