### ProX X-MXTPRO3LT Flight Case for Numark MixTrack 3 Pro 3 and Platinum Digital Controller W-Laptop Shelf

#### Description

The **ProX X-MXTPRO3LT** Road Case is designed by ProX Cases for the Numark Mixtrack Pro3, Mixtrack 3 and Mixtrack Platinum and is made with the highest quality material and workmanship to give you the ultimate security for your controller. If you have a passion for your gear and want to keep it safe at all times, this case will always perform at the highest level.

The X-MXTPRO3LT is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, reinforced steel ball corners and recessed steel padded handles and latches. It's all about the options! This item is part of our **Silver on Black** series, which features a black digital honeycomb finish with silver hardware for a sleek, professional look. There's no going back. This stunning ProX road case, for your professional gear, will always make a statement.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

*All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.*

**Note: Any pictured device is shown for reference only and not included!**

**For your safety and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that the sliding shelf can be removed when slid out to its furthest point.**
