ProX XS-DDJSZW MK2 Flight Case for Pioneer DDJSZ2 Digital Controller W-Side Laptop Shelf

Description

The **XS-DDJSZW MK2** Flight case designed by ProX Cases fits the DDJSZ2 controller and is made with the highest quality material and workmanship to give you the ultimate security for your DDJSZ2. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The DDJSZ2 with our unique side-mounted (reversible) laptop shelf is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and the laptop shelf stores underneath the unit for convenience, as well as an open front panel for you to access front input jacks easily.

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

For your safety, and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that the sliding shelf can be removed when slid out to its furthest point.
