### ProX XF-GLOPRO 5XFC - GloPro™ 5 Panel LED Facade Package W-Flight Case

#### Description

The **ProX XF-GLOPRO 5XFC GloPro™ DJ LED 5 Panel Facade Package** is the perfect internally lighted DJ booth for a mobile DJ, nightclub or venue looking to create a lasting impression. This unit is an extraordinary visual presentation and provides an outstanding and party stimulating display of light and movement. Enhance your performance and special event setup.

The GloPro™ Facade is a portable, lightweight and easy DJ booth set up to enhance the image and appearance of the mobile DJ and featuring high-quality aluminum construction and LED panels that are controllable by wireless remote control. Panels can be added or removed to change the size of the facade. Because it is internally lighted there are no "hot spots" that you typically see with fabric facades using external lights. The colors are even and consistent and fill each panel and facade with smooth lighting.

You can use the included RF remote control to create hundreds of color-changing combinations or choose one solid color.

The **GloPro™ Facade** provides the look of an elegant professional work area, hides cables, help protect equipment and assists with managing guests or spectators that are approaching the DJ. The light-weight internally lighted RGB LED Panels are the latest in Mobile DJ effect lighting! You can use any of our rectangular panels to create that perfect setup for your wedding, birthday party, special event, or even in a permanent installation!

Besides the infinite color-changing options the stainless steel hinges allow for multiple set-up options. Each panel can swing a full 180 degrees. You could even fold the facade panels all the way open and hang it on the wall like a picture frame!

Panels can be added or removed to change the size of the facade.

#### Features

##### Package Includes:

- **XF-GLOPRO 5XFC (5 Panels)**
- **Power Supply and RGB Sound Active Controller**
- **Wireless Joystick style remote**
- **ATA 300 style flight case**
- **ProX One Year (365 days) Limited Warranty (Click for Details)**

The ProX Transport case is manufactured with the Honeycomb Digital™ laminated surface design. Made with the super-sleek look of Honeycomb hexagon grids on all shell surfaces, which gives the cases an almost alien look as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.
