ProX T-LPS500S Laptop Stand W/Adjustable Shelf Foldable Portable - SILVER

Description

The **ProX T-LPS500S** laptop stand is an essential tool for a professional DJ or Musician.

Many DJ booths and performance venues were not designed to accommodate a laptop, which creates a hassle for the DJ. Deceptively simple at first glance, but quickly gives you perfect placement of your laptop in any DJ booth, without sacrificing the sturdiness of the stand. Safely elevates your laptop above your work. Weighing only 2.8 pounds, the ProX T-LPS500S design is capable of supporting the weight of not only the heaviest laptop, but also accommodates the largest CDJ, midi controller, EFX/Drum machines or lighting controller. The ProX T-LPS500S can alleviate many space issues. Folded flat, the ProX T-LPS500S is the perfect travel companion for your business or play.

At only 3 lbs, its lightweight and slim form factor when folded, makes it practical to carry anywhere. Saves space on the work surface by lifting your heavy electronics above it.

Also available in [Black T-LPS500B](#)
