ProX X-732 LED MUSTANG MUSTANG 7 Lens 385 RGBW LEDs MoonFlower Effect

Description

The Xstatic Pro Lighting Mustang X-732 LED is a light-weight LED lighting effect that produces a large array of beams that will cover a medium to large size dance floor or ceiling, and provide the excitement you need to keep any party going! This unit uses 385 LEDs (133 Red, 126 Green, 84 Blue, 42 White LEDs) and may be controlled by sound of music with it's own built-in programs, or customize your own light show using a DMX Controller. Users can also link up multiple Mustang X-732 LEDs with DMX cable to produce a sound activated synchronized light show.

The Mustang X-732 LED is built to last with long-life LED technology (rated at 100,000 hrs), and has no moving parts inside. The unit stays cool so you can run it all night long. Plus, there's no cool down time at the end of a gig, so you can just pack it up and go!

Features

Lighting Source:
7 Lens, 2.25"D each Lens
