ProX XS-MIC25STN Microphone Stand Case Holds up to 25 Units W-Casters

Description

The **ProX XS-MIC25STN Microphone Stand Case** holds up to **25 folding microphone stands**. It has Four 4" Heavy Duty Casters (2 locking) to make moving & loading easier and the latching hinged lid makes loading and unloading a breeze. The XS-MIXC25STN is a dependable, durable ATA-300 style flight case with a heavy-duty design that is sure to stand up to the rigors of travel and the wear and tear of being on the road all while keeping your gear secure and safe.

Each Compartment: 4.25" x 4.25" x 40"

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
