ProX XT-LA567-14FT220 Telescopic C-Shape Support for Small Line Array Speakers Max Load Incl XT-CRANK14FT220 crank stand

Description

The **XT-LA567-14FT220** is a Telescopic C-Shape Support for Small Line Array Systems for mounting on a tripod crank stand, speaker stand or pole for mounting on a subwoofer. The bracket is designed to safely withstand a load not exceeding 150 lbs. It is designed to provide mounting flexibility of line array speakers in an easy to set up an indoor or outdoor audio rig. The XT-LA567 is usable on any crank stand or tripod speaker stand or pole (Universal Fit). Manufactured with heavy-duty steel and black powder coated for long life. With safety and style in mind, the XT-LA567 speaker mount lets you streamline your audio system for a clean professional look.

The stand is equipped with two locking wing studs to lock to the pole and has multiple adjustments for total height/spread depending on your speaker sizes and your individual needs.

This package comes with heavy duty Crank Stand XT-CRANK14FT220

Caution: Always ensure that the stand being used is leveled and positioned on a hard stable surface, in a suitable location, on firm ground/surface and clear of overhead obstacles. Always Stabilize the legs before lifting the speakers into position. When outdoors, secure the tower with braces or cables, in case of wind.
