ProX XS-LCD7080WX2 Universal Case For Flat Panel Monitor LED-LCD-Plasma TV Dual 70" to 85" Adjustable Flight Case W-4" Casters

Description

The **ProX XS-LCD7080WX2** is designed to protect and transport Two 70" to 80" LED-LCD-Plasma TV/Monitors and is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches.

What size does it fit exactly?

This case supports multiple sized TV's from **70" Models** 62"W x36"H to **85" Models** 76"W x 45"H.

The ProX TV road cases help keep Plasma, LED, and LCD screens safe from damage during transportation. This Universal case has an adjustable sidewall to accommodate screens from 70" up to 80" in size. Locking heavy-duty caster wheels help to secure stability while loading and unloading electronics. Additional EVA foam padding helps secure TV in place while protecting the device from bumps and scratches. Exercise care when loading, unloading and rolling cases. Handles are retractable for better space utilization and loading.

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: All cases from ProX are designed to protect your equipment from damage during normal use and handling.

Features

ProX has been manufacturing quality flight/road cases since 1984 and all are designed to protect your investment!
