ProX X-GLOLITE20 GLOLITE 20" RGB LED Accent Lighting Fixture Aluminum Body RF Remote Controlled USB Powered

Description

The ProX X-GLOLITE20 is an **Exclusive Product from ProX (Design Copyright © 2018)** LED light for your production rigs. It is 20 inches long, has 13 bright SMD 5050 LEDs providing 8 colors via the included Wireless Remote Control. It also has four Sound Active modes as well. The X-GLOLITE20 is housed in an aluminum body for durability and safety, USB powered and also includes an AC Wall Adapter as well. It is truly plug and play. Remote uses CR2025 3V Battery

The RF Remote provides 8 colors to choose from: Two "Color Jump" and "Fade" modes and four sound-activated modes plus Dimming/Brightness controls and On/Off Button.

Light up your control surfaces, stylize your music rigs or illuminate your home or office with this versatile lighting product. It is packaged in a hanging retail display.

Customer Testimonials

Have you ever been Djing or playing in a dark club or gig and have had problems seeing your equipment or instruments in the dark? Well, say goodbye to that. With this great LED strip, you can see in those dark places. I installed one of these in my PRO X CASE for my Pioneer DDJ-SX and what a difference! It turns different colors, flashes in patterns and it also has a steady mode and a dimmer. I would definitely recommend this to anyone working in those dark places. It also makes great accent lighting to any room or as a modification to any car or RV.
